

Prem Patel

Calgary, AB | (+1) 437-429-1743 | work.prempatel@gmail.com | linkedin.com/in/premkumarpatel | Portfolio

SUMMARY

Detail-oriented **Full-Stack Web Developer** with a strong foundation in the **MERN Stack, JavaScript**, and **SQL/TSQL**. Proven expertise in building **scalable backend solutions**, engineering responsive customer-facing interfaces, and optimizing database performance. Adept at **integrating secure APIs** and developing real-time tracking features tailored to enhance user experience and platform scalability.

SKILLS

Frontend & Libraries — React.js, Redux, JavaScript, HTML5, CSS3, TailwindCSS, Bootstrap

Backend & Frameworks — Node.js, Express.js, Python, Java, C++, **RESTful APIs**, **Microservices**

Databases & Caching — MySQL, MongoDB, SQL Server, Redis

Tools & Platforms — **WS (S3, EC2, SageMaker, Cognito, DynamoDB)**, Git/GitHub, Postman, JIRA

PROFESSIONAL EXPERIENCE

BVD Group , Full Stack Developer

08/2024 – Present | GTA, Canada

- Designed and developed a centralized, **near-real-time operations dashboard** using **React.js** and **Node.js**, enabling teams to monitor and manage metrics across all enterprise sites from a single interface.
- Engineered **real-time data streams** to monitor live fuel tank levels and IoT sensors, leveraging **WebSockets** to feed **live tracking metrics** directly into the frontend UI.
- Built **secure backend microservices** to process and aggregate high-volume point-of-sale (POS) **transactional data**, streamlining billing, account management, and sales tracking.
- Integrated a **network status dashboard** that tracks live connectivity of on-site terminals, implementing automated alerts to ensure platform uptime and performance.

Groveza Digital Private Limited , Jr. Software Developer

03/2022 – 09/2022 | Mehsana, India

- Designed, developed, and maintained a scalable, **full-stack LMS**  **platform** and **Website**  supporting over 15,000+ active users using **React.js** and **Node.js**.
- Created **interactive dashboards** for **user account management**, feature tracking, and **real-time data visualization** under senior developer guidance.
- Integrated **secure external APIs**, including **payment gateways** for seamless **billing processing** and third-party communication webhooks.
- Optimized complex SQL database queries**, successfully reducing system latency by 15% and boosting **platform responsiveness**.

Groveza Digital Private Limited, Software Developer Trainee

09/2021 – 02/2022 | Ahmedabad, India

- Collaborated with senior engineers to design and develop robust, concurrent backend solutions **UHD 4K Movie Server**  using Python and C++ for high-performance streaming and data systems.
- Optimized network throughput** for UHD 4K data streams to ensure a highly reliable, zero-lag user experience.
- Enhanced system-wide data retrieval speeds by 20% through targeted software evaluations and **database query optimization**.
- Prepared comprehensive technical documentation for **APIs** and **system architectures** to streamline ongoing production environment maintenance.

PROJECTS

FreshFromFarm — **Full-stack Marketplace & Dashboard (MERN Stack)** , **MERN Stack**

- Built a modular, **responsive** e-commerce web application featuring **user portals**, secure checkouts, and an administrative **data dashboard**.
- Engineered an optimized **RESTful API architecture (Node.js/Express.js/MongoDB)** with a **secure authentication** and **session management** flow utilizing **JWT tokens** and **Google OAuth**.

AI Recruiter , **AWS Cloud Machine Learning**

- Developed an intelligent, cloud-native application using Python and AWS to extract and analyze unstructured document text.
- Integrated AWS S3, Cognito, and DynamoDB into a unified, **microservices-aligned architecture** capable of scaling securely to support high-volume data processing.

EDUCATION

Advance Diploma, Centennial College 

01/2023 – 04/2024 | Canada

- Software Engineering Technology – Artificial Intelligence | **CGPA: 4.1/4.5**

Bachelor of Engineering, Smt. S. R. Patel Engineering College (GTU) 

04/2017 – 05/2021 | India

- Computer Engineering | **CGPA: 9.75/10**
